

Ed

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.

Bob

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.

Nina

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.

Joey

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.

Cody

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.

Peter

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.

Ruth

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.

Michael

Using liquid glue (not a glue stick), glue flaps in numbered sequence. All folds are mountain folds, except for the four folds labeled as valley folds.

Start with the upper body. #22 - #30 are the back of the legs, glue them behind and below the main body.

As the last step, glue the head to the upper body at #42.
